### 1. Template for Advantages and Disadvantages Essay

**Formula:**

1. Write an introduction to the topic
2. Think of two advantages to the situation and provide clear examples
3. Think of two disadvantages and write about these with good support
4. Write a short conclusion giving your overall opinion

**Plan:**

1. Paragraph 1: Introduction
2. Paragraph 2: 1 Advantage with example
3. Paragraph 3: 1 Advantage with example
4. Paragraph 4: 1 Disadvantage with example
5. Paragraph 5: 1 Disadvantage with example
6. Paragraph 6: Conclusion + Your Opinion

**Template:**

Nowadays, **(Write a general sentence about the topic)**. For many people, **(Write an extra sentence to support the first sentence)**. However, there are both pros and cons to deciding to do this. In this essay, I will discuss some of the reasons why **(reword the topic sentence)** and some of the challenges to be overcome.

Let's begin by looking at the advantages of **(topic sentence)**. One of the main positives of **(write first advantage here)**. What I mean by this is that **(explain the advantage further)**. For instance, **(give an example related to the advantage)**. This can make you **(conclude the advantage)**.

Secondly, **(write second advantage here)**. Take **(write what your example is about)** for an example. In addition, **(write a concluding sentence about the advantage)**.

Turning to the other side of the argument, **(write first disadvantage in a sentence)**. To be more precise, **(write some more sentences about the first disadvantage)**. Let's use **(write what your example is about)** as an example. This often leads to **(write a concluding sentence about the disadvantage)**.

Another issue is that **(write the second disadvantage here)**. In other words, **(write one or two sentences to explain the second disadvantage)**. This process takes time and can be especially challenging if **(write a concluding sentence about the second disadvantage)**.

These days, there is an ongoing debate between people about impact of TV on children. While it is possible to claim that it has bad effect on kids, my view is that the advantages outweigh the disadvantages. In this essay, I shall explain my point of view by analysing both sides of the argument.

Firstly, there are several reasons why watching TV is good for children. One of them is that enhancing their learning abilities. It can also be argued that it consumes a lot of time. It should also be taken into account that TV is watched only during the leisure time and the children are learning something good even when they are enjoying their pastime.

Secondly, those who argue that TV has a bad influence on kids have a different view and say that it can actually be a bad thing. It is claimed that TV reduces outdoor and physical leisure activities. Then, there are concerns about TV affecting the children's studies.

Finally, while there are strong arguments on both sides of the case, my personal opinion is that TV is a good learning medium for kids if used within the limits and supervised by the adults. I would strongly recommend that TV has a good impact on the children.
